1. We are Members of the Lighting Industry Federation Ltd.
2. We take responsibility for factored products and check that luminaires or parts thereof fully comply with BS EN 60598-2-22 and that they have been produced in a factory meeting the requirements of ISO 9000. Full documentation of the application of these products is available to users and the traceability of supply is included within our own ISO 9000 system.
3. We agree to be bound by the Articles of Association of ICEL Ltd and by those commitments made by ICEL Council on behalf of ICEL Members.
4. We undertake to support and participate in all relevant ICEL product certification and registration schemes as they develop.
5. We aim for full testing and registration to ICEL 1001, for the majority of our luminaires and modules.
6. We hold ISO 9000 series accreditation for the appropriate categories of emergency lighting that we supply.
7. We confirm that all luminaires, we supply to the European Market comply with all the requirements of BS EN 60598-2-22 including that the battery design life is a minimum of four years when within the luminaire and used under rated operation conditions of temperature and voltage ranges.
